CommuteInfo *Connections* - June 2011

How to Integrate TDM in the Planning Process *Hosted by CommuteInfo*

On Wednesday, June 23rd, CommuteInfo will be the regional host for a webinar on how transportation demand management (TDM) can be intergraded into the planning process. There is no cost to attend the broadcast at our location; however, if you prefer to register and watch this from your own office, you will have to pay the registration fee.

Program Description:

Where, how and when should transportation demand management (TDM) be integrated into the transportation planning process? Hear from a TDM agency about how developing relationships with area MPOs to integrate key TDM policy objectives into the long-range planning process served to: (a) define long range TDM goals/objectives and (b) identify accompanying funding scenarios for a variety of TDM programs.

A representative of the USDOT planning capacity building team will join them in simplifying the planning process and provide tips on how you can take better advantage of the opportunities that exist through this important process.

Date: June 23rd

Time: 2:00 - 3:15 pm

Location: Regional Enterprise Tower, 24th floor

Let us know if you are interested in attending, and how many people you will be bringing along.

CommuteInfo Vanpools Growing

The month of May saw an increase in the number of CommuteInfo vanpools on the road. Three more vans were added, making a total of 46 CommuteInfo vanpools now operating in the Southwestern Pennsylvania region. Special thanks to all our partners who are helping to make this initiative grow!

Route 30 Advisory Team Meeting for July

CommutInfo will be holding its quarterly Route 30 advisory team meeting in the corridor on Tuesday, July 12th. If you would like to get involved, please email Bob Villella at bvillella@spreregion.org

The CommuteInfo program is designed to increase the number of people who travel to work or school by riding transit, vanpooling, carpooling, bikepooling, and walking.

If you do not wish to receive CommuteInfo Connections emails, please reply to this email with UNSUBSCRIBE as the subject.
